AMENDMENT AFTER FINAL UNDER 37 CFR §1.116

In response to the Office Action of May 23, 2002, please amend the above-identified application as follows:

IN THE CLAIMS

Amend claims 1, 7 and 10 as follows:

A. (Twice Amended) A head-mounted display apparatus, comprising:

a front frame on which a display part is mounted through a holding member in a stowable manner and a mount pad is disposed opposite to a forehead of a user, said display part being rotatable in forward and reverse directions;

side frames which are connected respectively to two end parts of said front frame by hinge parts; in a state of being movable to inner stowed positions by turning the hinge parts, said head-mounted display apparatus being capable of being mounted and held on
